

# Headlands in Danger!

Seaport Management wants to turn "Coast Guard Beach" into a Ferry Dock serving 2,400 Trucks a Day

Imagine a 36-mile caravan of trucks winding past Headlands Park every day!

1

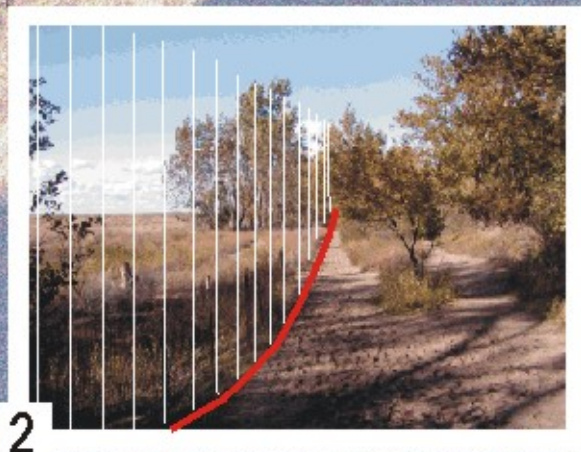

This oasis will be gone.

This project will destroy a priceless habitat and severely damage Headlands Park and the nature preserve.

Why spend \$300,000 in public money to study the feasibility of a project that is ill conceived to start with?

Contact your representatives!

Don't let this happen!

2

A high-security fence will border the dunes and everything East of the red line will be paved.
